

The Language Center looks to be distinct and active at the local and global hub, particularly in the areas of teaching Arabic to non-Arabic speakers. Our broad vision is not only limited to just language instruction but also extends for the Center to be a leading research facility.

Here at UJLC, every minute of our students' time count. We promise our students a one of a kind lifetime experience: A total immersion of language and culture where students make new friends and families away from home.
